GME APOLLO PROGRAM

HOW TO BUY A LAMBO ON THE MOON?

For many apes, it is a dream to drive the new 2021 Lamborghini Lunar Rover in the Sea of Tranquility this fall. While a production facility isn't expected to be operational on the surface for several years, purchasing agents have indicated that a few hundred thousand have already been loaded in the cargo bay of the shuttle and only apes who hold a share in the infinity pool will be eligible for the first run of the Lunar Lambo.

Launch Protocol

1. BUY
2. HODL
3. ~~VOTE~~
4. MEME

Go / No-Go for Launch

The launch checklist by **u/stevetheimpact** is now complete with the exception of NSCC 005 which is unnecessary for lift off. The tower has given the all clear and it appears as if Papa Cohen has given the nod. Pre-flight checklist complete. All systems are nominal. We are a go for launch.
